Course And Teacher Evaluations For EECS Winter Quarter 2006-2007

EECS: Electrical Engineering And Computer Science

Hooman Mohseni
381-0 Section 20: Electronic Materials: Properties And Applications
Winter 2006-2007

14 students enrolled 78.6% responded

Multiple Choice Questions

key to questions: 1 is low, 6 is high

1. **Instruction**: overall rating

   - **Rating**: 5.1
   - **Frequency**: 9% 0% 0% 9% 27% 55%

2. **Course**: overall rating

   - **Rating**: 4.6
   - **Frequency**: 9% 0% 0% 27% 36% 27%

3. Amount learned in course

   - **Rating**: 4.6
   - **Frequency**: 9% 0% 0% 27% 36% 27%

4. Level of intellectual challenge

   - **Rating**: 4.7
   - **Frequency**: 9% 0% 0% 27% 27% 36%

5. Interest stimulated in course

   - **Rating**: 4.9
   - **Frequency**: 9% 0% 9% 9% 18% 55%

6. Time spent per week

   - **Frequency**: <3 4-7 8-11 12-15 16-20 >20

   - **Rating**: 11/14

Comments

Professor doesn't care. He does not update website at all. He does not provide homework solution, quiz solution and past year
sample test. He does not take attendance. There is no blackboard. You do not know your class standing. No midterm. Simple quiz every Friday. Simple HW. If you want to waste your time, I highly recommend you take this class because you will learn nothing from this course. Mohseni is a very good professor when it comes to explaining conceptual things. Good discussion in the class. Professor Mohseni is an energetic professor who has an extensive knowledge of the material and communicates it well to his students. This course was a great help in understanding electronic, optical, and magnetic properties of materials. Hooman is an awesome professor with a great, relaxed lecture style. Only critiques are that at times the course felt a little disorganized and there were effectively no office hour sessions provided.
