Comments

I was disappointed with this course. I went in hoping to learn, but it was very hard to follow and understand the significance of the topics we covered. The professor, Bijan, is good with the theory, but assumes the students know things that we would love to hear more detailed descriptions about./ This course was a waste of time./ Excellent course, take it with Bijan. Homework is managable and the final project will teach you a lot./ this course needs some renovation -- i wouldn't take it unless you knew the instructor/ Bijan is very excited about optoelectronics and makes this class a fun time to attend./ Enjoyable course, reasonable workload; final project offered freedom to explore areas that were more interesting/ One can benefit alot more from this class with some quantum mechanics background. Prof is very enthusiastic.
