Comments

I have learned what I aimed to. Relevent daily knowledge (new papers), and the basics are taught in nice harmony. I am very quite satisfied with the course./ Bijan is an excited teacher while at times this makes the student know he cares. It is also a weakness because he has a tendence to go of topic because he found something interesting. His exam although not terrible usually have answers which are not clearly defined. So you end up writing extremely large amount in the hope that you have said all he wants. Bijan is always available for help which is good when you need help./ Slides could be better, but overall the class was OK.
