## Course And Teacher Evaluations For EECS Fall Quarter 2006-2007

### EECS: Electrical Engineering And Computer Science

**Hooman Mohseni**  
**409-0 Section 20: Semiconductor Lasers**  
 Fall 2006-2007

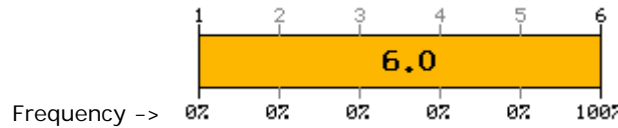

8 students enrolled  
 62.5% responded

#### Multiple Choice Questions

key to questions: 1 is low, 6 is high

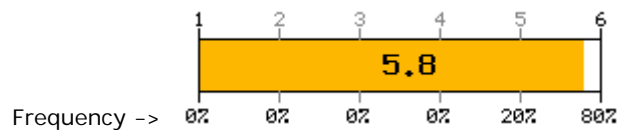

Response Rate

1. **Instruction:** overall rating

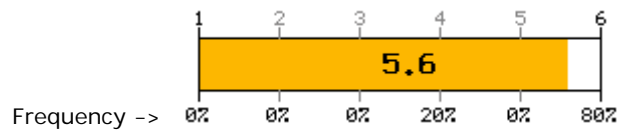

5/8

2. **Course:** overall rating

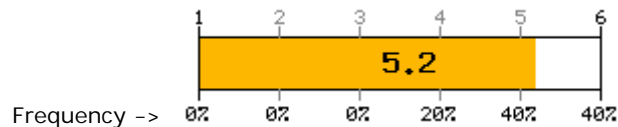

5/8

3. Amount learned in course

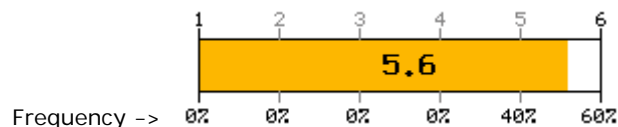

5/8

4. Level of intellectual challenge

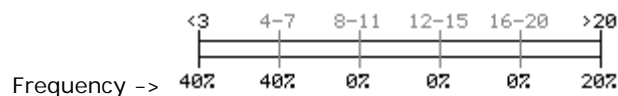

5/8

5. Interest stimulated in course

5/8

6. Time spent per week

5/8

## Comments

Before this course, I though I knew something about laser. But, in fact, some of the material I learned by my self turned out to be wrong. This course helps me to clarify imporent concepts and grasp the basic principles in semiconductor laser designs./ The instructor made a point that the students understand each and every minute details involved in the subject. He tried his best to make things appear simpler by giving physical examples. / My primary aim was to understand how a semiconductor laser works. I have not only fulfilled this aim but also am capable of performing basic simulations for device properties. The application of laser design criterias in my research area was the most important impact that I have fulfilled. Besides, I managed to learn how to improve these skills on my own.

My main interest before taking

Response Rate: **5/8**

6 - Very High	60%
5	20%
4	20%
3	0%
