## Jean-Pierre C. Leburton

# Honoring Manijeh Razeghi, *Northwestern University*

Submitted by Jean-Pierre C. Leburton, *University of Illinois*

Dr. Manijeh Razeghi is an enthusiastic and dedicated scientist with a phenomenal research activity. I have known her for more than 30 years, during which her enthusiasm with photonic devices never faded. She still have the same passion and energy as during her early times with Thomson CSF in Paris. Her technical influence in the field of quantum opto-electronic devices is reaching out to the best institutions across the world, with an incalculable number of graduated students.
