Dear Mr. Nguyen:

Congratulations! Dr. Vimal Desai has informed us that you have accepted the ECS Edward G. Weston Summer Fellowship for the summer of 2010.

It is the Society's intent that you are uniquely an ECS Summer Fellow during the period of your fellowship. To this end, you are required to not hold other named fellowships nor receive other substantial support during the same period; although minor supplements not requiring added duties or accountability will be permitted with the Selection Committee's approval. At the conclusion of your fellowship, but no later than September 10, 2010, you will be required to submit a written report of your work, which will be published in the Society's quarterly magazine, *Interface*, with a tentative publication date of December 2010. Guidelines for the report are enclosed.

Also, we will need a black and white photo of you and a short biography no later than July 1, 2010, as they will appear in the fall 2010 issue of *Interface*. If possible, please send these to me electronically, and send them as separate files to: mary.yess@electrochem.org. The photograph should be a pure TIF or EPS file consisting of at least 300 DPI, usable for print. Please do not send images embedded in a program such as Microsoft Word or Power Point. The biography should be no more than 200 words.

We are notifying your advisor, Prof. Manijeh Razeghi, of your acceptance of this fellowship. Enclosed in the follow-up letter will be our check in the amount of \$5,000 for presentation to you for use in continuing your research work during the summer of 2010.

Our congratulations to you on this very well-deserved recognition of your accomplishments. We sincerely hope that our award will further your study and we wish you the best for continued success.

Sincerely,

Mary E. Yess
Deputy Executive Director
